THE STEPS AUSTRALIAN BUSINESS SOLUTIONS WILL DO FOR YOU

Below are the general steps your OZBSC consultant will guide you through when we sell your business:

1. Help you identify the goals you expect to meet with the sale of your business.
2. Market the sale of your business confidentially. Your employees, customers and competitors will be unaware that your business is for sale.
3. Screen potential buyers before presenting them to you.
4. Work with you to arrange meetings with potential buyers
5. Begin negotiations between you and the potential buyer when both parties feel comfortable proceeding. Your broker will also help you evaluate each offer when trying to sell a business with his or her knowledge of current market trends and financing matters.
